

Life in the Dark

Trogloxenes - Cave Guests - may seek temporary shelter inside the cave, but cannot survive inside the cave. Can be found throughout the cave, but usually found in the Entrance Zone.

Troglophiles - Cave Lovers - live their entire life in the cave, but have not fully adapted to life in the dark cave environment. Usually found in the back of the cave known as the Twilight Zone.

Troglobites - Cave Dwellers - depend on the cave for survival and have fully adapted to life without light. Usually found in the area of the cave called the Dark Zone.
